

# **BRISD Instructional Materials Adoption Information**

Boys Ranch ISD is committed to transparency in the selection and use of high-quality instructional materials. The Texas State Board of Education (SBOE) oversees the evaluation of instructional materials by establishing an adoption cycle and issuing an annual proclamation for review and adoption of designated materials. BRISD is currently conducting an evaluation of instructional materials issued under **Proclamation 2022**, which includes health and PE instructional materials. BRISD values the participation of stakeholders in the review and selection of materials. Opportunities for online and in-person review of instructional material are available.
